I am a self-starter motivated by solving problems with a passion for mobile technologies. I have become increasingly proficient in learning new technologies throughout my university, internship and work experience. I am looking for opportunities where I can extend my skills and help others. I will bring flexibility and a positive attitude to any organization I work in.

Experience

T-Mark Inc. Buffalo NY   July 2015 - April 2016
Front-End Web Developer
- Created multiple client web sites utilizing CSS to support overall site look, feel and navigation and HTML to code web pages
- Used JavaScript to enhance web sites and pages for a better interactive experience
- Updated and maintained web sites and pages for multiple clients through the use of HTML and CSS
- Created multi-client marketing emails adaptable to any client

M&T Bank, Buffalo NY   August 2014 - July 2015
 Application Analyst,
- Researched, learned and became proficient with the bank's online banking (OLB) platform
